

Crocker Trail Wetlands Project

Brisbane Stewards Project Area:

The area lies along the northern and southern borders of Crocker Trail from the Cypress Lane cul-de-sac on the west and along the Crocker Trail to the old SP tunnel under Bayshore Blvd on the east. The area includes the old rail ditch with its now rare assemblage of native wetland plants and large Pacific Chorus Frog breeding population. The ditch lies west to east along the north side of Crocker Trail and borders on the north by the 100 Cypress Lane property and warehouse. The southern side of the trail is bordered by the FedEx property on the west and the northern fence line of the Chronicle property on the east to the tunnel.

Parking:

Parking is permitted perpendicular to the Chronicle building along its northwest corner and inside the project area only while we are working. Parking can be done along Cypress Lane by the cul-de-sac. We have never seen the "no parking signs" enforced there.
